By signing below, you have authorized this office to contact you for office related matters and thank you notices for referrals using your first name in the following manner: phone-work-home or mobile, e-mail and regular mail to include sealed envelopes and postcards. Messages may be left on an answering device/voicemail, or with the person answering your phone-home-work-mobile. Also, in accordance with the Health Insurance Portability and Accountability act of 1996 (HIPAA), updated September 23, 2013, this office is obliging to supply you with a copy of the office privacy policies and procedures upon request. This document outlines the use and limitations of the disclosure of your personal health information and your rights as a patient.

AUTHORIZATION: The process of determining suitability for Chiropractic Services involves answering fully and truthfully all questions presented to you either written or spoken regarding your past and present health status. If warranted, a physical examination will be performed that can include but is not limited to vitals measurement, systems evaluation, orthopedic tests and maneuvers (tests that move and stress parts of the body), neurological test (tests using sharp or dull instruments, smells or sounds, gently tapping) as well as physical touching. These test and maneuvers will help the Chiropractor determine what may be causing your complaints. Occasionally some temporary soreness and/or stiffness may occur due to the examination; less frequently aggravation of presenting symptoms or initiation of new symptoms. **By signing below, you have authorized the performance of a consultation and examination.**

I ACKNOWLEDGE THAT I HAVE BEEN OFFERED A COPY OF: NOTICE OF PRIVACY PRACTICES FOR PROTECTED HEALTH INFORMATION.

Informed Consent for Chiropractic Services

1. I have been informed that the process of rendering a "Chiropractic Adjustment (manipulation)" may be performed manually, with a table assist, or with an instrument to the vertebra(e) of the spine and/or associated structures (ribs, legs, arms etc.), often, but not necessarily resulting, in an audible pop or clicking sound;
2. I have been informed that in addition to the rendering of the Chiropractic Adjustment, one or more "Supportive Therapies" may be applied by the chiropractor or by staff under their direction and supervision incorporating the use of light, sound, vibration, electricity, traction, motion, bracing, heat, cold, and/or nutritional/lifestyle recommendations;
3. I have been informed that coinciding with the process, but not necessarily a result of, a Chiropractic Adjustment and/or Supportive Therapies there may be, at times, some temporary soreness and/or stiffness; occasional aggravation of presenting symptoms; rarely tissue bruising and/or swelling; rarely joint/bone separation/fracture (most noted are ribs); very rarely, disc and/or nerve injury; or extremely rarely, vascular injury to include stroke;
4. I have been informed that at times treatment techniques may include skin to skin contact, tissue mobilization and/or stretching of involved or related areas and digital pressure/light touch/brushing over regions both on and/or away from the complaint(s) location(s);
5. I have been informed that certain techniques may require close physical proximity between clinician and patient;
6. I have been informed that it is my responsibility to inform the chiropractor of any condition(s) that would otherwise not come to their attention;
7. I have been informed of my condition, possible benefits, risks of treatment if any, options, and financial obligations;
8. I have been informed that the chiropractor has made no guarantee of a positive outcome from treatment;
9. I understand the clinical necessity of having these procedures and in so doing I release the doctor from any known potential damage and responsibility; and
10. I have been afforded ample opportunity for questions and answers.

Therefore, by signing below: I consent to the performance of diagnostic and therapeutic procedures present and future that may be deemed reasonable and necessary by the doctor and/or staff under the direction and supervision of the office chiropractor(s) involved in my case.

Radiology Consent

I am aware of the recommended radiology procedures, the potential risks and options. I understand the clinical necessity of having x-rays taken at this time and give my consent/permission for this procedure. In so doing I release the Doctor from responsibility, known and unknown, for potential damage arising from this procedure.
